Program made possible by:

Using the SC Coastal LID Manual: Online Workshop

This 1.5 hour online workshop will provide participants:

- An overview of the "Low Impact Development in Coastal South Carolina: A Planning and Design Guide."
- Familiarize users with the the manual's compliance calculator.
- Include a hands-on demonstration for site design application and Q&A.

This workshop is intended for engineers, landscape architects, stormwater and plan review staff, and other design professionals. Trainers include professional engineers from The Center for Watershed Protection. Certificate for PDH/CEU submittal available upon request.
